246-18 Salary

a. Determination of Salary

Faculty Administrators’ salaries shall be established based upon the following factors, as applicable:

(1) Prior administrative experience. Prior relevant administrative experience may be considered in determining appropriate salary.

(2) Market conditions and comparability. To pay competitive total compensation in regional and national marketplaces, the Chancellor may consider external market comparability and other market conditions in determining appropriate salary. Comparisons used to determine compensation shall be to institutions comparable to the rank and stature of the University of California and may be selected to address the needs of individual schools and/or disciplines.
(3) **Equity within the University of California System.** UC System internal comparison with equivalent Faculty Administrator positions and responsibilities may be considered in determining appropriate salary.

(4) **Professorial salary.** As an incentive to serve in an administrative capacity, the Faculty Administrator’s administrative salary should at all times remain greater than his or her University of California professorial salary.

b. **Merit Increases**

(1) **Basis for Merit Increase.** A Faculty Administrator shall be eligible for consideration of an annual merit increase associated with the administrative salary in accordance with campus procedures and the availability of funding. Funding for administrative merit increases will be determined annually through the University of California budget process.

(2) **Eligibility.** The Faculty Administrator must be appointed no later than April 1 to be eligible for an administrative merit increase during the subsequent merit cycle.

(3) **Amount of Merit Increase.** The amount of a Faculty Administrator’s administrative merit increase shall be based upon the following factors:

   (a) The Faculty Administrator’s annual assessment (see APM - 246-80).

   (b) The Faculty Administrator’s current salary relative to internal comparable positions.

   (c) Availability of approved merit increase funding.

c. **Equity Increases**

(1) The Chancellor may approve an equity increase in order to maintain a Faculty Administrator’s administrative salary at an amount greater than his or her University of California professorial salary.

(2) The Chancellor may approve an equity increase when a five-year review results in a recommendation to reappoint the Faculty Administrator and identifies significant achievements and/or sustained excellent administrative performance beyond that which can be rewarded in the annual merit process. A salary increase may also be justified at the time of reappointment if market conditions or internal equity factors have changed since appointment, or if necessary to successfully retain the Faculty Administrator in light of a positive five-year review.
(3) An equity or retention increase shall be effective on the same date as the administrative merit (normally October 1), to the extent possible. The merit increase shall be applied first, and any additional equity or retention increase shall be determined after applying the merit adjustment. An additional increase beyond the merit adjustment shall be provided only if the applied merit increase does not resolve the inequity or retention issue.

(4) If a Faculty Administrator receives an equity or retention increase in a fiscal year prior to the availability of merit funding, the subsequent merit shall be calculated based upon the salary prior to any adjustment. A merit increase will only be applied if the merit calculation is more than the equity or retention increase.
