Policy

Appointees in the Clinical Professor series are community volunteer clinicians who teach the application of clinical and basic sciences in areas of patient care. These appointments constitute a valuable way to utilize the interest and expertise of practitioners from the community on a part-time unsalaried voluntary basis in the areas of teaching, patient care, and clinical research.

For an individual who is employed by the University as a staff physician or clinician or who holds a clinical appointment paid by an affiliated site, a concurrent without salary appointment should be made in the Health Sciences Clinical Professor series (see APM - 278) not in the volunteer Clinical Professor series.

Types of Appointments

Titles and ranks in this series are:

(1) Clinical Instructor
(2) Assistant Clinical Professor
(3) Associate Clinical Professor
(4) Clinical Professor

Criteria

An appointee must have the appropriate license to practice in his or her field and must contribute significantly to the clinical teaching program. Each school may establish other minimum standards (e.g., board certification). The Chancellor shall establish campus guidelines that specify the minimum number of required hours per year; the number of minimum hours may vary in different schools or departments.

Clinical competence and excellence in teaching will be the primary basis for appointment, reappointment, and promotion in this series. Clinical competence should be determined by primary verification of licenses, written peer recommendations from recent supervisors, National Practitioner Data Bank (NPDB) report (may be self-query by applicant), evidence of current medical malpractice insurance, chronology of employment with no unexplained gaps since completion of residency, and list of malpractice claims and suits in which the applicant has been involved with narrative description of the underlying allegations, facts and resolution of the complete case. The Chancellor in
consultation with the schools and clinical departments shall determine the need for additional review criteria. For example, if the individual has participated in professional organizations, University and community service, and/or research, a description of these activities should be included in the appointee’s personnel file as part of the review material.

279-17 Terms of Service

The initial appointment of an individual to a title in this series shall have a specified ending date and may be for a maximum term of three years. Subsequent reappointments may have maximum terms of five years. There is no limit on the number of times an appointment may be renewed or the number of years spent in each rank.

After the initial appointment, there shall be at least a minimal review prior to reappointment that includes evaluation of clinical expertise. Such evaluation must include a written evaluation from the chair or designee of clinical competence. After that review, each appointee shall be reviewed at least every five years. The Chancellor may defer the review for one year.

The Chancellor in consultation with the clinical schools and departments shall establish written criteria and guidelines, including the timing for a promotion review. In general, after 10 (ten) years of service, promotion should be considered.

Appointees in the volunteer Clinical Professor series may not be transferred to another University title. Appointment to another University title may be made after a competitive affirmative action search.

279-20 Conditions of Appointment

An appointment in this series with a specified ending date expires by its own terms on that date. Written notice should be provided when the appointment is not renewed. It is within the University’s sole discretion not to reappoint an individual. APM - 137, Non-Senate Academic Appointees/Term Appointment, does not apply.

An appointment may be terminated before the ending date for cause, such as failure to serve the required minimum number of hours, or when in the judgment of the Dean, upon the recommendation of the chair, there is no longer a need for the appointee’s services or the conduct or performance of the appointee does not warrant continued appointment with the University. The Dean shall give the individual 30 (thirty) days written notice with a statement of the reason for the termination. APM - 145, Non-Senate Academic Appointees/Layoff and
Involuntary Reduction in Time, and Non-Senate Academic Appointees/Corrective Action and Dismissal, do not apply to appointees in this series.

An appointee may present a written complaint about his or her appointment or early termination of the appointment to the Chancellor for administrative review. A complaint must be filed within 30 (thirty) calendar days from the date of a written notice of termination. The Chancellor shall consult with the appropriate University official, such as the department Chair or Dean, and shall make a written response to the appointee. The written response shall normally be made within 90 days of the receipt of the complaint. Non-Senate Academic Appointees/Grievances, does not apply to appointees in this series.

279-75 University Defense And Indemnification

Appointees may be covered under the University’s self-insured liability programs for alleged negligent acts and/or omissions arising from activities conducted within the course and scope of their University appointment. Determination of such coverage is made based on the California Tort Claims Act, Business and Finance Bulletins, BUS-9 and BUS-75, and applicable campus policy, agreement or contract. See BUS-9 and BUS-75 for information on defense, indemnification, and required evidence of eligibility.

For additional information on University defense and indemnification, contact the campus/medical center risk management or Office of the President, Office of Risk Management.
