

Revelle Plaza Café Renewal

- Renovation of the 47-year-old dining facility in the Revelle neighborhood, including seismic and life-safety improvements, upgrade of building systems, replacement and/or upgrade of kitchen equipment, and renewal of seating and serving areas.
- Project originally was planned for implementation in conjunction with recently-completed Revelle Apartments project; however, estimated costs at the time were prohibitive.
- Now, with the increased number of students housed in Revelle (and other neighborhoods on campus), it is imperative that this dining facility be upgraded to serve current demand.
