

San Francisco

Long Hospital 4th Floor Hybrid Operating Room

12520360

Fiscal Year: 2015-16

Project Description

- The build-out of the Hybrid OR space will consist of a radiographic/OR room, an equipment room, a control room, a nurse prep area, three new scrub sink areas, and one new office.
- The Hybrid OR combines a traditional OR with imaging equipment to achieve real-time images during procedures as well as allow for minimum invasive surgeries. This brings a coordinated approach to cardiac procedures formerly provided in two separate areas in the hospital.

Project Scope Summary

ASF	2,519
GSF	4,348
