Facility Audit and Inspection Program

Capital Renewal and Replacement

Make Certain that DM projects that are taken care of by an approved CRR are removed from the DM List or are identified as part of a future CRR project.

Priority One: Currently Critical. Significantly impact the Mission of the University and/or result in a cited safety hazard.

Priority Two: Potentially Critical – will become critical within a year if not corrected expeditiously

Priority Three: Necessary but not yet critical -- Needed work that is expected to become priority one or two within the next 10 years.

Deferred Maintenance (DM) Projects
