Notes:

Policy benchmarks are available within the quarterly Investment Performance Summary. Returns for periods less than one year are not annualized. Market values include accrued income except for STIP's asset value which is stated at amortized book value plus accrued interest. The method of rounding may produce the appearance of minor inconsistencies in various totals and percentages, but the differences do not affect the accuracy of the data.

1. Total Assets include Other Endowments and Planned Giving Investment assets (formerly Charitable Asset Management assets) and is net of the STIP balances in other portfolios.
2. UC Entity benchmark is a blend of the benchmarks of the funds in the table above, each weighted by the percentage it represents of the total assets.
