Linking Documents

The only time identity source documents with different names can be accepted is when an official linking document such as a marriage certificate, certified copy of birth certificate, or court record can be provided linking the two names.

The linking document must have both the former and current legal names on it and both the primary and secondary documents must be valid and not expired.

For example, a married woman may use both a current driver's license with her married name, and a certified copy of her birth certificate with her maiden name, as primary and secondary sources of identification as long as she brings a linking document, her marriage license, with both her maiden name and married name on it.

When a linking document is presented, you must scan the document into the Document 3 window.
