

Principal Investigator:

PROGRAM RESPONSIVENESS

Limit is 1 page

Describe how the proposed research addresses the priorities described in the RFP (listed in decreasing order of importance):

- Supporting collaborative research between UC faculty and Laboratory scientists.
- Supporting UC graduate students in programs that promote interaction between Laboratory scientists and UC graduate programs.
- Supporting research that takes advantage of unique Laboratory facilities, especially involving students.
- Supporting research in the physical, life, or social sciences, or in the humanities, on topics aligned with the mission of the laboratories.

Also, explain how the research is related to the missions of the Laboratories (LLNL, LANL).
