Subject: LAUC Committee on Committees, Rules, and Jurisdiction : Spring Assembly update

11 April 2002

To: Deborah Murphy, LAUC President  
From: Peter Brueggeman, Chair, LAUC Committee on Committees, Rules, and Jurisdiction  
Regarding: Spring Assembly update

The Cmte's final report from last year noted the need to revise the duties of the Past President and to consider the use of the word "cultural" in the Diversity Cmte's responsibilities, as well as pointing out some hanging queries/potential issues regarding LAUC bylaws and the APM. These were addressed by the LAUC Executive Board, and formulated into bylaws revisions.

In new business, at end of February, the Cmte sent to the LAUC President recommended bylaws revisions and comments, relevant to the Cmte's charge "...to review (our) standing charge and make recommendations as appropriate. .... to explore issues around the possibility of an alternative structure for this committee, reducing the number of committee members so that not all campuses need have a representative with the LAUC Executive Board could potentially act as the final review body as needed...."

The Cmte recommended dropping the "annual" stipulation in its charge to review LAUC's bylaws, adding a stipulation that Divisions are required to review their divisional bylaws after a statewide change, and adding a stipulation that Divisions are to notify the statewide Committee on Committees, Rules, and Jurisdiction after the divisional revisions. These suggested bylaws changes are to be reviewed by the LAUC Executive Board. The Cmte explored issues regarding its structure in its report to the LAUC President, and recommended no change.
