

**TEST PLAN FOR RELEASE 1104**

**On-Line Error Fixes**

December 19, 1996

Information Systems and Administrative Services  
Office of the President  
University of California

**Testing Overview**

This test plan addresses the test runs and cases constructed to verify the correct installation of program modifications identified in the release cover letter.

This test plan is made up of the following components:

1. Batch Table Loads for On-line Testing
2. On-line Testing

**Batch Table Loads For On-line Testing**

1. Job LOADEDDB loads the DB2 EDB.
2. Job LOADCTL loads the DB2 CTL.
3. Job LOADHDB loads the DB2 HDB.
4. Job LOADPAR loads the DB2 PAR.
5. Job LOADPCD loads the PPPPCR, PPPHCR, and PPPBSR tables contained on the PCD database and the PPPTHF, PPPTTC, and PPPTIM tables contained on the THF database.

**Verification**

Ensure that the above tables have been successfully loaded by verifying normal completion of the jobs and utility highest condition codes.

**On-line Testing**
