	Bind Members:	None
	CICS Maps:	None
	Forms:	None
	Table Updates:	None
	Urgency:	Date Mandated (see Timing of Installation)

This release addresses the following service request:

Service Request 80385

Unified Union Reporting Process

Service Request 80385 asked that the Monthly Union Reporting File process be changed. When the Monthly Union Reporting File is produced, and the employee's EDB data has changed since last reported, the specific Union reporting records with a record type action of "C" (changed) should contain *full data*, similar to the Union Reporting records containing full data for record type action of "A" (added). No changes are required in the production of the existing once-per-week Weekly Union Reporting File.

Programs

PPP770

Logic has been added to look at the run type option on the Specification record. If the run type option of "MONTHLY" is specified, and the employee's current EDB data has changed when compared to the data on the history record since last reported, a Union Reporting record is produced containing full data and marked with a record type action of "C" (changed).

Test Plan

An installation Test Plan is provided with this release.

Installation Instructions

1. Program Preparation

Note: At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively), and DUAL-ONLINE programs must be compiled once only and linked into the online library. "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

a) Install, compile, and link the *modified* program listed in Table 1

Program Name	DB2?	Compile	Package Bind?	Done?
PPP770	Yes	Batch	No	

Table 1

2. Bind the Plans listed in Table 2:

Plan Name	Done?
PPP770	

Table 2

3. Testing

Perform installation verification testing as described in the Test Plan.

Perform any desired additional campus testing.

Timing of Installation

The installation of this release is *Date Mandated*.

This release must be installed *after* the weekly February 24, 2003 Single Union Reporting File have already been produced by PPP770 and *before* the next scheduled March 3, 2003 Single Union Reporting File is produced.

Beginning with the first scheduled March 3, 2003 run of the month, the Run Specification record should contain the following values to produce the Monthly Union Reporting File. Positions 1 through 11 contain the Program ID, position 12 contains the History File Input option, and positions 13 through 19 contain the run type option.

```
1-----19
PPP770-SPECYMONTHLY
```

For subsequent weekly runs scheduled for the remainder of March, the run specification record should contain "PPP770-YWEEKLY" to produce the Weekly Union Reporting File.
