Service Request 16915 asked that Work Study Program code and translation be added to the Appointments and Distributions section of the WEB Post Authorization Notification (PAN) detail page. With this release, this information has been added.

CICS Programs

PPNTAPPT

Program PPNTAPPT produces the Appointments and Distribution of both the CICS PAN and the WEB PAN. Work Study Program code and translation already appears on the CICS PAN. With this release, this information now appears on the WEB PAN.

Test Plan

- Testing the changes to PPNTAPPT involves the generation of PANs through the use of the EAPP function of the PPS Entry/Update Sub-system. Produce a WEB PAN with a change to the Work Study Program code.

Verify that the change appears on the Appointments and Distribution section of the WEB PAN similar to the example below:

Appointment 10 Distribution(s)

	Dist #	Full Accounting Unit	Begin Date	End Date	Dist%	FTE	Rate	DOS	Step	O/A	Work Study Program
	11	CHANCELLOR'S OFFICE									
+	3	404918 19900	1 07/01/96	99/99/99	0.8000	1.00	\$4,116.68	REG			P-Presidential
-											K-Federal Profit

Local Testing is encouraged.

Installation Instructions

PPNTAPPT is a dual use module which must be compiled twice. The following steps should be followed in installing this release:

1. DB2 pre-compile, compile and link/edit PPNTAPPT into the batch LOADLIB.
2. DB2 pre-compile, compile and link/edit PPNTAPPT into the on-line OLOADLIB.
3. Perform a package bind for the on-line system.

Note: This module is designed to be dual use but currently is not exercised in batch. Therefore, there is at present no batch plan bind required at present.

Timing of Installation

The installation of this release is not urgent.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Susan.Isaacs@ucop.edu, or call at (510) 987-0465.
