Run this jobstream once the necessary customization has been made.

After running the PDS2HFS jobstream, verify that the following Net.data file was copied to the "include" directory created in the Web EDB inquiry release 1415:

Filename	Description
PPWWIPER	Personal Information page

Once the include file has been copied, use the **chmod** command to set permission on the file to 755. The group ownership of all files may be left as-is, assigned to the group associated with the installer ID.

```
$ chmod 755 *
```

Test Plan

Please verify that the translated values on the "Personal Information" screen of EDB Web Inquiry, ***no longer*** appear for the data elements listed above.

Campuses are encouraged to perform any other desired local testing.
