Service Request 14895

Service Request 14895 asks that, in order to protect an employee's privacy, the employee's Social Security Number (EDB0111) be removed from all CICS online header screens for the following sub-systems:

- Departmental PAR Inquiry
- PAR Inquiry
- EDB Inquiry
- EDB Entry/Update
- Employment Verification
- HDB Inquiry
- History Reporting
- Online Rush Checks
- Transaction Holding File

Note that some of these sub-systems utilize multiple headers and that not all headers for these sub-systems contain Social Security Numbers. The data portion of some screens contain Social Security Numbers in positions that appear to be in header locations. These may be addressed in a future release.

The Help text associated with the Social Security Number will remain anchored to the current screen header location for the time being. This will be addressed in a subsequent release as it will necessitate modifications to Help text for over 175 individual screens.
