## Installation Instructions

The installation of this release is Date Mandated. Installation must be completed after monthly maintenance to begin November and prior to the first compute for November earnings.

This document provides installation instructions for this release. Review these instructions carefully before proceeding with installation.

### *Program Preparation*

**Note:** At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

**Note:** "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1. Install, compile and link the **modified** programs listed in the following table.

Program	DB2?	Compile	Package Bind?	Done?
PPCTTRRE	Yes	BATCH	No

### ***Install in Production***

### Control Table Updates

1. Run PPP004 to update the CTL tables listed below with the transaction included with this release. *As always, these updates should be applied to production only as approved by your campus Payroll Manager.*
  - Gross-to-Net Table: Use the transactions in CARDLIB (GTNPROD). Campuses must review these transactions and replace ??? with the correct Priority Number.
  - Data Element Table: Use the transactions in CARDLIB (DETPROD).
  - Benefits Rates Table: Use the transactions in CARDLIB (BRTPROD).
  - Bargaining Unit Table: Use the transactions in CARDLIB (BUTPROD). Campuses must review these transactions and verify the Gross-to-Net numbers.
  - Code Translation Table: Use the transactions in CARDLIB (CTTPROD).

**Note: Do Not Process the Mass Change Transactions produced in Step 1 above.**

2. Run PPP004 to update the Title Code Table on the CTL. Use the transactions identified in the email from Marit Marino and/or David Doran dated October 7, 2004 with a Subject “Firefighters TCT file is available for pickup”.
3. The update from the run of PPP004 will trigger a Title Unit Code change from TX to FF for Firefighter Title Codes 9801, and 9803 thru 9810. **Note that Mass Change Transactions will be generated from this run of PPP004. These transactions should be used to trigger EDB Title Code updates (via PPP290 and batch EDB File Maintenance).**
4. Run standard campus procedures (*for Davis and Santa Cruz only*) to process the Mass Change Transactions from PPP004 so that eventually, batch EDB File Maintenance will trigger a Title Unit Code change from TX to FF for employees with Firefighter Title Codes 9801, and 9803 thru 9810.
