## Introduction

This document provides installation instructions for release 1608 for the Payroll/Personnel System (PPS) changes resulted from two legislation changes ( AB205 and SB457 ) and changes in eligibility for some disabled children.

Please review these instructions carefully before proceeding with the installation.

## Installation Sequence

### 1. Install for Testing:

- CICS HELP

Import new CICS HELP field level help data from R1608.HELPDDSE (refer to sample JCL in R1608.JCL(LOADDDSE) ).

- COBOL Program Installation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Modify, install, compile and link the modified program listed in the following table. If a BIND is required, it is indicated in the table under the heading "Bind".

PROGRAM	DB2 Pre-Compile	Compile	Bind	Done?
PPCOVEDB	No	Dual	No	
PPCOVRGE	No	Dual	No	
PPEC704	Yes	Dual	No	
PPEC705	Yes	Dual	Package	
PPEC706	Yes	Dual	Package	
PPEC707	Yes	Dual	Package	
PPEC708	Yes	Dual	Package	
PPEI360	Yes	Batch	No	
PPWIMEM	Yes	CICS	Package	

- Bind the following Plans.

<b>Bind Plans</b>	<b>Done?</b>
PPP080	
PPP120	
PPP130	

- Control Table (CTL) updates

Execute the Release 1608 version of PPP004 to update the Data Element Table, System Messages Table, and Data Element to Screens Table with the transactions supplied in the release CARDLIB files.

DETPROD  
MSGPROD  
CTTPROD

2. Execute and verify the rest of the test plan, per supplied instructions.

3. Perform any desired additional campus testing.

4. Install into Production:

- Install CICS HELP field level help as described in the installation instruction above for the testing.
- Install COBOL Program and Bind the Plan as described in the installation instruction above for the testing.
- Update Control Tables as described in the installation instruction above for the testing.

5. Startup Instructions

None.
