This release addresses the following service request:

Service Request 16944

Service Request 16944 asks that when calculating the total premiums for the Postdoctoral Scholar-University Paid Life/AD&D and University Paid Disability benefits, the calculation routine should bypass all Expense Distribution Work file (EDW) entries containing the Description of Service (DOS) Code of "VAC."

Programs

PPP536

Program PPP536 has been modified such that EDW entries containing premiums for Postdoctoral Scholar University Paid Life/AD&D and University Paid Disability plans are not added to the total premiums when the Expense Distribution entry contains a Description of Service Code of 'VAC'.

Test Plan

A separate Test Plan document is provided with this release.

Installation Instructions

1. COBOL Program Installation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- a) Modify, install, compile and link the **modified** programs listed in the following table.

PROGRAM	DB2 Pre-Compile	Compile	Package Bind?	Done?
PPP536	Yes	Batch	No	

2. Bind the following Plans.

Bind Plans	Done?
PPP536	

3. Execute and verify the rest of the test plan, per supplied instructions.
4. Perform any desired additional campus testing.
5. Place modified objects in production.

Timing of Installation

The installation of this release is Not Urgent.

Even though this release is not urgent, it is suggested that campuses install this release for the next scheduled monthly Consolidated Billing Process so that the total University-Paid Life/AD&D and University-Paid Disability premiums recorded on the Self Billing Statement File do not reflect premiums associated with Description of Service Code of 'VAC'.

As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.
