Introduction

This document provides installation instructions for release 1651 for the benefits deenrollment project.

Please review these instructions carefully before proceeding with the installation.

Installation Sequence

1. Install for Testing:

- Copy Member Changes

Modify the following copymembers.

CPWSXEST
CPWSXESR

- CICS HELP

Import new CICS HELP field level help data from R1651.HELPDDSE (refer to sample JCL in R1651.JCL(LOADDDSE)).

- COBOL Program Installation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Modify, install, compile and link the modified program listed in the following table. If a BIND is required, it is indicated in the table under the heading "Bind".

| PROGRAM | DB2 Pre-Compile | Compile | Bind | Done? |
|----------|-----------------|---------|------|-------|
| PPEI315 | Yes | Dual | No | |
| PPESTEDB | Yes | Batch | No | |
| PPESTREJ | Yes | Batch | No | |

- Bind the following Plan.

| Bind Plans | Done? |
|------------|-------|
| PPP130 | |

- Control Table (CTL) updates

Execute the Release 1651 version of PPP004 to update the Code Translation Table and Data Element Table with the transactions supplied in the release CARDLIB files.

CTTPROD
DETPROD

2. Execute and verify the rest of the test plan, per supplied instructions.

3. Perform any desired additional campus testing.

4. Install into Production:

- Install Copy Member Changes as described in the installation instruction above for the testing.
- Install CICS HELP field level help data as described in the installation instruction above for the testing.
- Install COBOL Program and Bind the Plan as described in the installation instruction above for the testing.
- Update Control Tables as described in the installation instruction above for the testing.

5. Startup Instructions

None.
