

Release 1658
Service Request 16949
NRA Imputed Income

INSTALLATION INSTRUCTIONS

08/12/05

Revised 08/31/05

Information Resources & Communications

Office of the President

University of California

Installation Instructions

This document provides installation instructions for this release. Review these instructions carefully before proceeding with installation.

Bind Member Installation

1. Install the **new** Bind members listed in the following table.

Bind Members	Installed?
PPP537	

Program Preparation

Note: At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1. Install, compile and link the **new** program listed in the following table.

Program	DB2?	Compile	Package Bind?	Done?
PPP537	Yes	BATCH	No	

2. Install, compile and link the **modified** program listed in the following table.

Program	DB2?	Compile	Package Bind?	Done?
PPP520	Yes	BATCH	No	

Plan Binds

1. Bind the plans in the following table.

Bind Member	Done?
PPP520	
PPP537	

Testing

Perform installation verification testing as described in the Test Plan.

JCL

1. All JCL or JCL procedures which execute PPP520 should be modified with the addition of the output NRA Imputed Income file (DD Name: "NRAIMP", LRECL=144, RECFM=FB). Retain the output file written to DD NRAIMP for input to the FTP process (below) and/or input to PPP537.
2. Create production JCL procedures for monthly execution of PPP537. The JCL in JCL (RUN537) can be used as a sample. The NRA Imputed Income file created by PPP520 is the primary input to this program (DD Name: "NRAIMP"). Specification input is provided by UPAY921.

Control Table Updates

Install Control Table (CTL) updates into production by executing **PPP004** to update the following DB2 CTL table with **release transactions**:

- System Messages Table (08) – Use the UPAY554 transactions in CARDLIB (MSGPROD).

UPAY Forms

Follow local procedures to implement usage of the new form UPAY921.

Install in Production

1. If a printed report of the NRA Imputed Income file is desired, run PPP537 on a monthly basis such that PPP537 is run after the execution of PPP520.
2. If users desire spreadsheet use of the NRA Imputed Income file, setup an FTP process to send the file written by PPP520 (DD Name: NRAIMP) to appropriate users. The record length of the fixed length file is LRECL=144.
