

Created on: July 20, 2005

**SR81287 Requirements
EX 2005 Wage Reporting**

Objective:

The EX 2005 Wage Reporting program reports on base pay changes for EX employees who received salary adjustments as part of the 2005 contract implementation.

Project Type:

This is a one-time PPS program.

Requested by:

HR&B Labor Relations

Analyst:

Carrie Gatlin

Due Date(s):

This release is Date Mandated.

It is requested that locations install and run the reporting program as soon as practicable after all base pay changes have been completed. Locations should deliver the electronic report file to UCOP (via FTP) no later than December 1, 2005.

Background:

The University and the American Federation of State, County and Municipal Employees (AFSCME) union reached agreement in 2004 on a new contract covering employees in the Patient Care Technical (PCT/EX) unit. The wages article for this agreement called for an across-the-board (ATB) increase of 4%, effective September 1, 2005.

UCOP will make available a one-time PPS program (SR 81286) to implement the 4% increase for eligible employees in open range titles. All locations should use the Range Adjustment Process to increase rates for Per Diem titles.

The reporting program will be modeled on similar past reporting programs released in conjunction with ATB programs, particularly R1601, the reporting program for the 2004 EX wage implementation. The program will only have as input the files generated from the Range Adjustment Process and the ATB Program.

1.0 Reporting

A one-time process should be developed to produce a report and electronic data file of the base pay change(s) for each EX employee who receives a rate adjustment as part of the 2005 EX wage implementation. The process should be modeled after programs developed for Release 1601, and should use the final Range Adjustment files generated from the Range Adjustment Process (PPP910) and the file from the one-time EX ATB program (SR 81286).

Two versions of a Base Pay Change report should display the employee data listed below. One should be sorted in order of Employee Name and display the title 'Central Office Report of Base Pay Changes - EX' (Attachment A). The other version should be sorted by Employee Name within Department and display the title 'Departmental Report of Base Pay Changes - EX'.

- Employee ID
- Employee Name (EDB 0105)
- Most Recent Hire Date (EDB 0113)
- Home Department Number (EDB 0114) and translated department name from the Home Department Table
- Appointment Number (EDB 2001)
- Time-Appointment (Anticipated) (EDB 2012)
- Title Code (EDB 2006)
- Starting Rate
- Resulting Rate
- Primary Pay Schedule (EDB 0152)
- Description of Service (DOS) Code (EDB 2056)
- Percent Change - the difference between the starting rate and resulting rate, expressed as a percentage of the starting rate
- Description (action from input files and effective date)

For the "Description" column, adjustments from the ATB one-time program should be labeled "ATB" while adjustments from the range adjustment process should be labeled "Range".

The program should also produce an electronic file in tab-delimited format. This electronic file should contain the same data as the Central Office Report described above.
