Re:	Release:	1678
	Service Request:	None
	Error Reports	1683
	Programs:	PPWEWSP, PPWIFNW
	Copymembers:	None
	Include Members:	None
	DDL Members:	None
	Bind Members:	None
	CICS Maps:	None
	Forms:	None
	Table Updates:	None
	Urgency:	Not Urgent (see Timing of Installation)

**Error Report 1683**

Error report 1683 identifies an incorrect suppression of leading zeroes in the display of fiscal year in the format yyYY (where 'yy' – beginning calendar year and 'YY' – ending calendar year of the fiscal year) in the screens EWSP and IFNW.

**CICS Programs**

**PPWEWSP**

The program PPWEWSP is the detail processor for the EDB Entry Update Work Study Program Limits screen EWSP. This program is changed to fix the error of suppression of leading zeroes in the display of fiscal year in the format yyYY (where 'yy' – beginning calendar year and 'YY' – ending calendar year of the fiscal year)

**PPWIFNW**

The program PPWIFNW is the detail processor for the EDB Inquiry Work Study screen IFNW. This program is changed to fix the error of suppression of leading zeroes in the display of fiscal year in the format yyYY (where 'yy' – beginning calendar year and 'YY' – ending calendar year of the fiscal year).

## **Installation Instructions**

### ***Program Preparation***

**Note:** At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

**Note:** "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1. Install, compile and link the **modified** programs listed in the following table.

<b>Program</b>	<b>DB2?</b>	<b>Compile</b>	<b>Package Bind?</b>	<b>Done?</b>
PPWEWSP	Yes	CICS	Package	
PPWIFNW	Yes	CICS	Package	

2. Execute and verify the test plan.

3. Perform any desired additional campus testing.

4. Install into Production:

- Install COBOL Program and Bind the Plan as described in the installation instruction above for the testing.

### **Test Plan**

#### **CONTROL TABLE (CTL) INITIAL LOAD (LOADCTL)**

##### *Description*

This job loads the DB2 CTL database.

If there are any Control Table Transaction updates for this release, the Control Table Transaction updates are already reflected in the particular PDS members used for the loading of the DB2 CTL database.

##### *Verification*

Ensure that the DB2 CTL has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the database.

#### **EMPLOYEE DATA BASE (EDB) INITIAL LOAD (LOADEDDB)**

##### *Description*

This job loads the EDB database.

##### *Verification*

In order to assure successful completion of this job, verify that the EDB has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the database.

### Test CICS Screens

#### *Description*

Test the changes to fix the error of suppression of leading zeroes in the display of fiscal year in the format yyYY (where 'yy' – beginning calendar year and 'YY' – ending calendar year of the fiscal year) in the on-line CICS screens EWSP and IFNW. CICS screen EWSP is accessed by the EDB On-line Entry/Update program PPWEWSP and IFNW is accessed by the EDB On-line Inquiry program PPWIFNW.

After successful installation of the CICS programs PPWEWSP and PPWIFNW, make a newcopy in the region you are going to test the EWSP and IFNW screens. After successful newcopy, select the employee ID 501000062 with option EWSP and IFNW in the PPS CICS system.

Verify in these screens the following:

1. Leading zeroes are displayed in the Fiscal Year column for all the entries.
2. Correct release number is displayed in the top left corner of the screen (PPSSSS0-E1678), where 1678 is the release number and SSSS is the screen name.

### Timing of Installation

The installation of this release is **Not Urgent**.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to [Baskar.Chitravel@ucop.edu](mailto:Baskar.Chitravel@ucop.edu), or call (510) 987-0692.
