	CICS Maps:	None
	Forms:	None
	Table Updates:	System Messages Table
	Urgency:	Not Urgent

### **Service Request 16934**

Service Request 16934 requests that the Payroll/Personnel System (PPS) be modified to add a new data element, UC W-8BEN Date, to the Employee Data Base (EDB). This value will assist the campuses with facilitating the proper citizenship status coding of non-U.S. citizens. In phase I (Release 1667) of this project, the UC W-8BEN Date was added to the Employee Data Base (EDB) and the following reports, PPP5831, PPP6201, and PPP6203 were modified. Phase II of this project, will produce the new report "Status Changes for Non-US Citizens".

### **Programs**

#### **PPP582**

This is a new program which will report status changes for non-US citizens. If an employee has at least one change then all the related information for the employee is displayed in the PPP5821 status changes report.

### **Bind Members**

#### **PPP582**

PPP582 contains the bind statements for the new program PPP582.

## **Installation Instructions**

### ***Program Preparation***

**Note:** At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

**Note:** "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

1. Install, compile and link the **modified** programs listed in the following table.

<b>Program</b>	<b>DB2?</b>	<b>Compile</b>	<b>Bind?</b>	<b>Done?</b>
PPP582	Yes	Batch	Plan	

2. Control Table (CTL) updates

Execute PPP004 to update the System Messages Table with the transactions supplied in the release CARDLIB files.  
MSGPROD

3. Execute and verify the rest of the test plan, per supplied instructions.

4. Perform any desired additional campus testing.

5. Install into Production:

- Install COBOL Program and Bind the Plan as described in the installation instruction above for the testing.
- Update Control Tables as described in the installation instruction above for the testing.

### **Production JCL**

The test JCL provided with this release to run the report program PPP582 can be used as a model to create the production PPP582 JCL.

### **Test Plan**

An installation Test Plan is provided with this release.

### **Timing of Installation**

The installation of this release is **Not Urgent**.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to [Baskar.Chitravel@ucop.edu](mailto:Baskar.Chitravel@ucop.edu), or call (510) 987-0692.
