Update the base DOS control table with a new DOS Table entry to be identified as “**Certification Pay General**”, see attached sample.

Initially, usage of this DOS is planned to accommodate the “TX” bargaining unit’s recent contract which provides for certification pay covering employees in the Animal Tech and Animal Health Tech titles. Creating this generic certification pay type DOS is designed to limit the need to assign bargaining unit/contract-specific DOS codes wherever feasible and thereby avoid the proliferation of DOS codes.
