**Subject:** CTL Update: Description of Service table

Service request 81634 asks that 7 new DOS codes be established on the Description of Service table. They are as follows:

- ASH, CPR, and IPS are in response to the AFT agreement.
- SPG is for Specialty Pay – General use.
- SAE, TPM, and TPV are in response to campus needs after the introduction of Termination Benefits Pay.

Therefore, at the request of Payroll Coordination, we are making the appropriate transactions to update the Description of Service table available via FTP. The transactions can be downloaded from the Payroll ftp site in the following dataset.

PAYDIST.CTL2006.CARDLIB(DOS81634).

The supplied transactions must be processed via PPP004. Values of '???' in columns 4 through 6 of the transactions must be changed to the appropriate sequence numbers for your location.

**The transactions must be processed in time to process the first AFT payment due on or about November 15, 2006.** They may be processed any time prior to then.

Functional questions should be addressed to Patty Yamashita of Payroll Coordination:
