Okay, I'll take this as approval for the following SRs:
81758
81711
81718
plus the final piece of release 1721

The transactions will go out today.

-Maxine

Hi Maxine,

All my tax updates are there. Thanks.

Subject: next set of table updates

Hi Julia and Kathy,

I'm getting ready to send out the tax year table updates. In addition to SR 81758, the tax table updates, this transaction set includes the following:

SR 81711 - system parameter updates for OASDI & HI Max Medicare

SR 81718 - MAC, etc.

Release 1721 - setting NRA GTN to inactive status and system parameter to zero.

Attached are the updates to the tax tables, system parameters and GTN table.

Please confirm that the correct transactions are all included in this set and that the values are correct. Kathy, you do not have to review the tax rates all over again. These are the same transactions that Paul used. I just want to make sure we all agree that this transaction set contains the correct items.

As soon as I hear back from you both, I'll send the transactions to the campuses.

Maxine
