	CICS Maps:	None
	Forms:	None
	Table Updates:	None
	JCL Changes:	PPP532
	Urgency:	Not Urgent

This release addresses the following service request SR#81402.

Service Request 81402

Background

Release 1356 created a Summer Salary Employer Contribution Reporting File to be transmitted to UCOP no later than the 8th working day of each month.

In advance of the modification to implement UC Merced as location 10 (see SR 81325), UCOP Retirement Policy has determined that the Summer Salary Reporting File is no longer needed.

Proposed Modification

Program PPP532 should be modified to no longer produce or transmit the Summer Salary Reporting File to UCOP. The Faculty Summer Salary Employer Contribution Report also produced by program PPP532 should not be modified.

Programs

PPP532

This program is being changed so the Summer Salary report will no longer be produced.

Reports

Report PPP5321: the line reflecting the number of records written to the Summer Salary file has been removed.
Report PPP5322: is not impacted by this change.

JCL Changes

In step PPP532, the JCL must be modified to remove the DD statements associated with Summer Salary output file.

Installation Instructions

1. COBOL Program Installation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

a) Compile and link DB2 program **PPP532**.

2. Bind plan PPP532.

3. Modify (re move statements for DD SUMSALF) execution JCL. Sample JCL is included in the JCL release library member Run532.

4. Execute the test plan described below.

5. Perform any desired additional campus testing.

6. Install modified program PPP532 into production.

7. Install modified JCL

Test Plan

1. Load the CTL database using the JCL member LOADCTL

2. Load the EDB database using the JCL member LOADEDDB

3. Run the current production version of the PPP532 job.

4. Run the modified version of the PPP532 job. Sample JCL is included in the JCL release library member RUN532. Ensure the job completes successfully

5. Confirm that the SUMSAL output file is not produced by the modified job.

6. Confirm that the production and test versions of the reports are identical. Results can be verified by comparing them to the files in the REPORTS dataset provided with this release.

7. Run the modified job to produce the monthly Summer Salary reports. Ensure the job completes successfully.

Timing of Installation

The installation of this release is **Not Urgent**. However as usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Robert.Glaser@ucop.edu, or call (510) 987-0454.
