Installation Instructions

This document provides installation instructions for this release. Review these instructions carefully before proceeding with installation.

1. Install the one-time bind member listed in the following table.

Bind Member	Done?
PPOT1708	

2. Program Preparation

Note: At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Note: "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively), and DUAL-ONLINE programs must be compiled once only and linked into the online library. "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- a) Install, compile, and link the *one-time* program listed in Table 1

Program Name	DB2?	Compile	Package Bind?	Done?
PPOT1708	Yes	Batch	No	

Table 1

3. Bind Plan listed in Table 2:

Plan Name	Done?
PPOT1708	

Table 2

4. Testing

Perform installation verification testing as described in the Test Plan.

Perform any desired additional campus testing.

5. Production JCL - PPOT1708

Create production JCL using the test JCL provided with this release as a model.

Sample JCL is in PDS PAYDIST.R1708.JCL.

6. Install One-time program PPOT1708 and bind member PPOT 1708 into production.
7. Run PPOT1708 in production.

The *input files* required are the Final SX Range Adjustment File produced from PPP910 and the one-time SX ATB Adjustment File produced from the one-time program PPOT1707 (Release 1707).

The output SX Electronic Tab-delimited Report file produced by execution of the one-time program associated with this release should be delivered to UCOP via ftp as soon as practicable after all processes have been completed but not later than **August 18, 2006**.

The length of the file is 161 and the record format is RECFM=FB. It will be the campus' responsibility to properly allocate space for this dataset during the ftp transfer. The file should be sent to vsftp.ucop.edu using the dataset name:

/ftphome/ftpusr*/put/cbg/SXWAGES.Y2006, where '*' is the one-byte or two-byte campus ID.
For example,

/ftphome/ftpusr1/put/cbg/SXWAGES.Y2006 for UC Berkeley
/ftphome/ftpusr10/put/cbg/SXWAGES.Y2006 for UC Merced.

8. The following output file listed reflect the destination of PPOT1708 output file:

DD Name	Destination
POT1708E	Electronic Tab-delimited Report File to be delivered to UCOP as soon as practicable after all retroactive processes have been completed, and not later than August 18, 2006.
