University of California

## Introduction

This document provides installation instructions for release 1711. Please review these instructions carefully before proceeding with the installation.

## Installation Sequence

1. Install the modified copy members listed in the following table.

Copylib Members	Installed?
CPWSXESR	
CPWSXEST	

2. COBOL Program Installation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

**Note:** "DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

Install, compile and link the **modified** programs listed in the following table.

PROGRAM	DB2 Pre-compile	Compile	Package Bind?	Done?
PPEC140	Yes	Batch	No	
PPESTEDB	Yes	Batch	No	
PPESTREJ	Yes	Batch	No	

3. Bind the following Plans.

<b>Bind Plans</b>	<b>Done?</b>
PPP130	

4. Execute and verify the rest of the test plan, per supplied instructions.
5. Perform any desired additional campus testing.
6. Place modified objects in production.
