	Bind Members:	None
	CICS Maps:	None
	Forms:	None
	Table Updates:	None
	Urgency:	Date Mandated (see Timing of Installation)

This release addresses the following service request:

**Service Request 81525**

Service Request 81525 asks that the UCRS Payroll Activity file be modified so that contributions to GTN number '745' are mapped to Plan Code '18'.

**Programs**

**PPI730**

This program performs the extract of UCRS tax, service credit, and contribution information from each payroll process. The variable length record for each employee contains contributions reported under different plan numbers depending on an internal table of GTN numbers and Plan Code Mappings. Plan code 18 was added, and contributions from GTN 745 (which was previously mapped to plan 28) are reported under that plan. Plan code 28 continues to receive contributions from GTN 742.

**Test Plan**

No formal Test Plan document is provided with this release. However, test files are provided and campuses may verify their installation by performing the following.

1. Load the EDB and CTL Databases. Sample Job Control for job LOADEDDB and LOADCTL can be found in the JCL library accompanying this release.
2. Run the modified program, PPI730, using the PAR file provided with this release. Sample Job Control for job RUNI730 can be found in the JCL library accompanying this release.

3. To verify the installation of PPI730 look into the file UCRS from your run above and find the record for employee 805000001 (positions 51-59). Look for the new plan code 18 in positions 225-226 and an amount of +20000 in positions 227-233 (signed numeric). You will also see old plan code 28 in positions 288-289 and an amount of +100000 in positions 290-296 (signed numeric).

### **Installation Instructions**

1. Program Preparation.

Note: At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

- a) Install, compile and link the **modified** program listed in the following table.

<b>Program</b>	<b>DB2?</b>	<b>Compile</b>	<b>Package Bind?</b>	<b>Done?</b>
PPI730	Yes	Batch	No	

- b) Bind plan PPI730.

2. Testing

Perform test described above.

Perform any desired additional campus testing.

3. Place modified objects in production.

### **Timing of Installation**

The installation of this release is Date Mandated.

This release must be installed prior to generating the first UCRS file reflecting checks for 2007.

As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.

If there are any questions, please send electronic mail to [maxine.gerber@ucop.edu](mailto:maxine.gerber@ucop.edu), or call at (510) 987-0422.
