

Release 1742

**Service Request 81600
120 Day Limit on Transfers of Payroll
Expense**

Installation Instructions

December 04, 2006
Prepared by Baskar Chitravel

Application Technology Services
Information Resources & Communications
Office of the President
University of California

This document provides installation instructions for release 1742. Please review these instructions carefully before proceeding with the installation.

1. Copylib Member Installation

- 1.1 Install the following **new** copy members:

Copylib Members	Installed?
CPLNETFE	

- 1.2 Install **modified** copy members:

Copylib Members	Installed?
CPLNF018	

2. Bind Member Installation

- 2.1 Install the following **new** bind members:

Bind Members	Installed?
PPETFEDT	

- 2.2 Install the following **modified** bind members:

Bind Members	Installed?
PPP350	
PPP450	

3. COBOL Program Preparation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

The "SPAS" designation indicates that a module needs to be compiled and linked into the appropriate SPAS loadlib. If only "SPAS" is indicated in the Compile column, then the module is either a called procedure, or only called by a stored procedure. The SPAS package bind differs from that used for CICS dual-use binds. If the SPAS application is running, a STOP and START PROCEDURE is required to install the new version.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- 3.1 Install, compile, and link the following **new** programs:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPETFEDT	Yes	Dual	Yes	

- 3.2 Install, compile, and link the following **modified** programs:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPEXPTRN	Yes	Dual	Yes	
PPP350	Yes	Batch	No	
PPP450	Yes	Batch	No	
PPWEDTM	Yes	CICS	Yes	
PPWEDTS	Yes	CICS	Yes	

4. Plan Binds

4.1 Bind the following plans:

Bind Member	Done?
PPP350	
PPP380	
PPP450	

5. JCL Changes

5.1 Modify the JCL for program PPP450. A sample of this JCL can be found in PAYDIST.R1742.JCL(RUN450).

6. CICS Resource Definition Operations (RDO)

6.1 A Processing Program Table entry is required for the following new program. The CICS Resource Definition Operations (RDO) is provided in CARDLIB (RDOPROD). Replace *GROUPLIB* with the campus group. Update the CSD. JCL member LOADRDO, which contains sample JCL for batch loading the RDO definitions. Perform a CEDA install for the group if the region is already executing.

RDO Entry	Done?
RDOPROD	

7. Testing

7.1 Perform installation verification testing as described in the Test Plan. In addition perform any further local testing.

8. Install in Production

8.1 Place modified objects in production.

9. Control Table Updates

9.1 Execute **PPP004** to update the following DB2 CTL tables with release transactions.

- **Parameter Table (01)** – Use the transactions in CARDLIB(PRMPROD).

Please review the transaction carefully and replace the base system parameter values with the appropriate campus values. Table entries for Parameter numbers 1 -299 are reserved for Base. Table entries for Parameter numbers 300 – 369 are reserved for the campus.

- **System Messages Table (08)** – Use the transactions in CARDLIB (MSGPROD).

- **Fund Group Table (41)** – Use the transactions in CARDLIB(FNDPROD).

Please review the transactions carefully and replace the base fund group definition values with the appropriate campus values.
