

SR 81743

Create 2007 Benefits Rates Transactions

Created on: November 16, 2006
Last Modified on: November 28, 2006

Purpose

Deloitte has created a file of benefits rates that are to be used for 2007. This SR asks that transactions be generated from that file to update the PPS Benefits Rates Tables with default (that is, not bargaining unit specific) rates for Medical, Dental, Vision and Legal plans¹, that these transactions be tested and that they be delivered to all locations except as noted below².

The new Medical Contribution Base Salary bands for 2007 ('<43', '43-86', '86-129' and '>129') are to be used in the creation of the transactions for medical rates.

Notes:

1. AD & D, Group Life Ins and Employee-Paid Disability rates are not changing for 2007.
2. Definity Health rates should only be created for UCSF and UCSB.

Requested by:

Patricia Mashhoon, HR & B - ISS

Analyst:

Patricia Mashhoon, HR & B – ISS

Due Date:

These transactions must be made available to campuses at the same time as the other "advance" control table updates.
