SR 81788 – The Changes to the Description of Service (DOS) Table

**SR817188 Requirements
Changes to the DOS Table**

Objective:

The object of this request is to change the NSETC code on Description of Service codes “OSP,” “PFQ,” “RBA,” and “HOP.” Internal Audit requested a review of these codes as the UCRP interface file is inappropriately including these payments to employees’ covered compensation gross. However, the PPS is not including the payments with these specific DOS codes to the Retirement Gross.

Project Type:

This should be a table change. The forms UPAY650 are attached.

Requested by:

Payroll Coordination

Analyst:

Patty Yamashita

Due Date(s): February 9, 2007
