## **Introduction**

### **Service Request 81870**

This request asks that the Social Security Number (SSN) be removed from the PPP1341 report. PPP1341 is the “CONFIRMATION SUMMARY OF PURGED EMPLOYEES” report. It also requests that the option to sort the report by SSN be eliminated from UPAY860.

## **Overview of PPS Modifications**

Program PPP130 will be modified, eliminating the SSN.

Report PPP1341 will be modified, eliminating the SSN.

Form UPAY860 will be modified, eliminating the SSN sort option.

## **Programs**

### **PPP130**

PPP130 is the main driver for the periodic EDB maintenance process.

It will be modified to remove the SSN from the Employee Delete Confirm File which is the input for PPP134.

### **PPP134**

PPP134 creates report entitled PPP1341, “CONFIRMATION SUMMARY OF PURGED EMPLOYEES” report.

It is being modified to remove the SSN which is printed on the PPP134 report, and to eliminate the option of sorting by SSN.

The report layout in working-storage will be modified as defined in the SR81870, which eliminates the SSN and repositions the remaining fields. Code which obtains the SSN and moves it to the report will be deleted. Validation of the sort option in the spec card will be modified to disallow a value of “S”.

## **Copybooks**

### **CPWSXEDC**

CPWSXEDC defines the layout of the Employee Delete Confirmation file. It will be modified to remove the SSN field.

## **Forms**

### **UPAY860 – PPP134 Program Run Specification**

The sort sequence option in column 12 will no longer accept “S” (Employee SSN Order) as a valid option. Therefore the form will be modified by removing the line that refers to this option. (See Attachment 1 in SR81870).
