Re:	Release:	1784
	Service Requests:	81971
	Programs:	PPO1784A (one-time), PPO1784B (one-time)
	Copymembers:	None
	Include Members:	None
	DDL Members:	None
	Bind Members:	PPO1784A, PPO1784B
	CICS Maps:	None
	Forms:	None
	Table Updates:	None
	Urgency:	Date Mandated (see Timing of Installation)

This release addresses the following service request:

**Service Request 81971**

Service Request 81971 asks that a one-time process be developed to identify SX represented employees in the American Federation of State, County, and Municipal Employees (AFSCME) union as eligible for the custodian and certain laborer wage increases, and to calculate the appropriate wage increases based on an increase of \$.50 (hourly), \$87.00 (monthly) or \$40.00 (biweekly).

*As noted in the SR, this one-time process only applies to Santa Cruz and Santa Barbara Campus locations.*

**Programs**

**PPO1784A**

PPO1784A is based on one-time program PPO1799A, which is in turn based on PPP910. It is to be run in PRLM1 mode and FINAL mode only. In addition to the expected selection criteria of effective dates, bargaining unit, representation code, and DOS attributes, the program reads a file of title codes and rates to determine eligibility and calculate the new distribution rate. Each location will have a distinct set of titles and rates.

**PPO1784B**

PPO1784B is based on one-time program PPO1799B. It produces the tab-delimited electronic reporting file.

**Bind members**

**PPO1784A**

PPO1784A contains the bind statements for the plan associated with PPO1784A.

## PPO1784B

PPO1784B contains the bind statements for the plan associated with PPO1784B.

## One-time JCL

### PPO1784A

PPP910 JCL is used as the basis for creating the one-time JCL for PPO1784A. One version reflects the PPP910 run for the Preliminary 1 phase. A second version reflects the PPP910 run for the Final phase. The one-time Run Specification Record is based on the PPP910 Run Specification Record, as defined in UPAY677.

The Preliminary 1 phase produces an output preliminary file for input to PPO1784A's Final phase and as input to PPO1784B. The Final phase produces EDB update transactions and costing transactions.

### PPO1784B

JCL is created for the new report program PPO1784B. It reads the output file created by the PPO1784A run in the Preliminary 1 mode at DD PLMTRNOT. This is the standard wrap-around file used by PPP910, created in the Preliminary 1 phase, updated in the Preliminary 2 phase, and used as input in the Final phase.

PPO1784B produces a tab-delimited Electronic File, per Requirements. This file is sent via FTP to UCOP. Therefore, an FTP process needs to be established locally.

## Test Plan

An installation Test Plan is provided as a separate document.

## Installation Instructions

Installation Instructions are provided as a separate document.

## Timing of Installation

The installation of this release is *Date mandated*.

The SX Represented Custodian Wage Increase to employees is effective with October 2007 earnings. Therefore, OP Labor Relations has asked that campuses install this release and process the increases so that they are reflected in the November 1, 2007 check for the MO pay period beginning October 1, 2007

In addition, the output Electronic Tab-delimited Report file produced by execution of the one-time program PPO1784B should be delivered to UCOP via ftp as soon as practicable after all processes have been completed but not later than **November 30, 2007**. The file should be sent to vsftp.ucop.edu using the dataset name:

/ftphome/ftpusr\*/put/cbg/SXCUSTOD.Y2007, where '\*' is the campus ID. For example,

/ftphome/ftpusr7/put/cbg/ SXCUSTOD.Y2007 for UC Santa Cruz

/ftphome/ftpusr8/put/cbg/SXCUSTOD.Y2007 for UC Santa Barbara.

As usual, campuses are encouraged to install this release in as timely a fashion as possible, and in the normal numeric sequence of releases.

If there are any questions, please send electronic mail to Baskar.Chitravel@ucop.edu, or call (510) 987-0692.
