

Release 1791

**Service Request 81977
2008 Open Enrollment Changes – Phase I**

**Service Request 81992
Name Change for the Dental Plans and
Health Net Medical Plan**

Installation Instructions

November 02, 2007
Revised November 14, 2007
Prepared by Baskar Chitravel

Information Resources & Communications
Office of the President
University of California

This document provides installation instructions for release 1791. Please review these instructions carefully before proceeding with the installation.

1. *Copylib Member Installation*

- 1.1 Modify and install the following **campus-specific** copy member:

Note: do not overlay local values with Base values.

Copylib Members	Installed?
CPWSXIC2	

2. *Bind Member Installation*

- 2.1 Install the following **new** bind member:

Bind Members	Installed?
PPOT1791	

3. *COBOL Program Preparation*

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- 3.1 Install, compile, and link the following **new one-time** program:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPOT1791	Yes	Batch	No	

- 3.2 Install, compile, and link the following **modified** programs:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPEI199	Yes	Dual	No	
PPP560	Yes	Batch	No	
PPP561	Yes	Batch	No	

4. Plan Binds

- 4.1 Bind the following plans:

Bind Member	Done?
PPOT1791	
PPP560	
PPP561	

5. JCL Changes

- 5.1 Create JCL for the **one-time** programs listed below. The test JCL can be used as a model to create the production JCL.

Program	Sample JCL	Installed?
PPOT1791	RUNO1791	

6. CICS HELP

- 6.1 Import new CICS field level help

Import from PAYDIST.R1791.HELPPDDSE (Refer to sample JCL in PAYDIST.R1791.JCL(LOADDDSE)).

7. Testing

- 7.1 Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

8. Install in Production

- 8.1 Place modified objects in production.

- 8.2 Run PPOT1791 to default remaining obsolete medical plans after posting the Open Enrollment I (2008 enrollments) transactions to the EDB, and prior to the first Compute with December earnings. It will default any remaining obsolete medical plans to the appropriate medical plans.

PPOT1791 should be run again before PPP400 in any Compute with December Earnings to default any obsolete medical plans established via CICS or batch since the last run of PPOT1791.

9. Control Table Updates

9.1 Execute **PPP004** to update the following DB2 CTL tables with release transactions. Install the CTL transactions after the November earnings have been run and before the first compute for December earnings.

- **Gross-to-Net Table (02)** – Use the transactions in CARDLIB (GTNPROD).

Gross-to-Net updates are provided to update GTN numbers related to the Plan Codes, Descriptions, and Labels. Use the transactions in PAYDIST.R1791.CARDLIB(GTNPROD). Local GTN Priority Numbers must be assigned in place of the ??? in columns 4 through 7.

All campuses except UC Davis use GTN 065 and GTN 066 for Delta Dental. At the location UC Davis, change GTN number 065 to 117 and 066 to 118 before applying the GTN table transactions.

- **Data Element Table (06)** – Use the transactions in CARDLIB (DETPROD).
- **Code Translation Table (38)** – Use the transactions in CARDLIB (CTTPROD).

All campuses except UC Davis use GTN 065 and GTN 066 for Delta Dental. At the location UC Davis, change GTN number 065 to 117 and 066 to 118 before applying the CTT table transactions.
