## **Testing Overview**

This document addresses the test runs and cases constructed to verify the correct installation of Release 1800. The test is made up of the following steps:

1. Control Data Base (CTL) Initial Load (LOADCTL)
2. Employee Data Base (EDB) Initial Load (LOADEDDB)
3. History Data Base (HDB) Initial Load (LOADHDB)
4. History Table Update (RUN742)
5. Online Testing
6. EDB WEB Personal Information Screen
7. Execute EDB File Maintenance (EDBMAINT)
8. Execute job PPP711 (RUN711)
9. Execute job PPP715 (RUN 715)
10. Execute job PPP861 (RUN861)

## **CONTROL TABLE (CTL) INITIAL LOAD (LOADCTL)**

### **Description**

This job loads the DB2 CTL database.

### **Verification**

Ensure that the DB2 CTL has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

## **EMPLOYEE DATA BASE (EDB) INITIAL LOAD (LOADEDDB)**

### **Description**

This job loads the EDB database.

### **Verification**

In order to assure successful completion of this job, verify that the EDB has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

## **HISTORY DATA BASE (HDB) INITIAL LOAD (LOADHDB)**

### **Description**

This job loads the HDB database.

### **Verification**

In order to assure successful completion of this job, verify that the HDB has been successfully restored by verifying normal completion of the job and ensuring that all tables have been successfully loaded into the data base.

## **HISTORY TABLE UPDATE (RUN742)**

Using the provided ECF file, execute JOB PPP742 (RUN742) to update the History table.

### **Verification**

Verify normal completion of the job.

## ONLINE TESTING

### 1. EDES

Enter **0344** into the “**Search for: DE**” field and press enter.

#### Verification

Verify that the new Armed Forces Service Medal Veteran Code data element (EDB0344) appears with EPD1 appearing under the column labeled “Screen(s)” on the screen.

### 2. EPD1

#### Verification

Verify that the release number at the top of the screen is **E1800**.

Verify that the field level help appears for the new Armed Forces Service Medal Veteran Code data element (EDB0344) by moving the cursor to the **Serv Medal** field label and invoking online help.

Verify that the **Serv Medal** field can be updated for employee **333333003**.

Verify that the bundle highlighting for Number of Registered UC Student Units (EDB0237) functions correctly. At UCOP, this was verified by accessing a bundle where Citizenship Code (EDB0109) was set up to be highlighted on the EPD1 screen, but Number of Registered UC Student Units was not.

### 3. IGEN

#### Verification

Verify that the release number at the top of the screen is **I1800**.

Verify that the value appearing in the last position of the Veteran Status Code field for employee **333333003** corresponds to the last value entered from the EPD1 screen.

Verify that the field level help appears for the new Armed Forces Service Medal Veteran Code data element (EDB0344) by moving the cursor to the Veteran Status Code field label and invoking the online help.

### 4. HPER

#### Verification

Verify that the release number at the top of the screen is **I1800**.

Verify that an “**M**” appears in the last position of the Veteran Status field for employee **700000007**.

Verify that the field level help appears for new Armed Forces Service Medal Veteran Code data element (EDB0344) by moving the cursor to the Veteran Status Code field label and invoking the online help function.

January 22, 2008

## **5. IBA2**

### **Verification**

Verify that the release number at the top of the screen is **I1800**.

Verify that an “**M**” appears in the last position of the Veteran Status Codes field for employee **70000007**.

Verify that the field level help appears for the new Armed Forces Service Medal Veteran Code data element (EDB0344) by moving the cursor to the Veteran Status Code field label and invoking the online help function.

January 22, 2008

## **EDB WEB PERSONAL INFORMATION SCREEN**

### **Verification**

Verify that the release number near the bottom of the screen is **1800**.

Verify that employee 000000001 (ID 552142011) displays an “N” for the new Armed Forces Service Medal Veteran Code (EDB0344).

January 22, 2008

## **EXECUTE EDB FILE MAINTENANCE (EDBMAINT)**

### **Description**

Execute an EDB File Maintenance with the ED transaction that was included with the release materials as input to update the Armed Forces Service Medal Veteran Code for employee **701000073**.

### **Verification**

Verify that the results match member PPP1800 in the REPORTS PDS.

January 22, 2008

## **EXECUTE JOB PPP711 (RUN711)**

### **Description**

Program PPP711 generates the CPS interface files.

### **Verification**

Verify that the EMPDATA file contains employee **701000073** with an “M” in position 177.

January 22, 2008

## **EXECUTE JOB PPP715 (RUN715)**

### **Description**

Program PPP715 generates the SLIS, Senior Leadership Information System interface files.

### **Verification**

Verify that the SLISEMP file contains employee **701000073** with an “M” in position 942.

January 22, 2008

## **EXECUTE JOB PPP861 (RUN861)**

### **Description**

Program PPP861 produces the Layoff Administration Affirmative Action Adverse Impact report. The report details the employees contained in the selected unit(s).

### **Verification**

Verify that the results match member PPP8612 in the REPORTS PDS.
