SR82143 Removal of Obsolete Programs

SR82143 Requirements
Removal of PPP170 and USER17 programs

Objective:

With the introduction of Online EDB Entry/Update, most campuses no longer use the Personnel Action Form (PAF). This service request asks that the programs in PPP170 and USER17 be made obsolete. The two campuses, UC Irvine and UC San Diego, that continue to use the programs for local processes have agreed to maintain PPP170 and USER 17 programs as local modules.

Project Type:

This is a clean-up project that will eliminate obsolete programs and code.
