This release addresses the following Service Request:

Service Request 82216

Service Request 82216 asks for the Social Security Number to be removed from the monthly union deductions file and report.

Service Request 82216 provides the following background information:

As part of its ongoing effort to protect an employee's privacy, the University has removed the Social Security Number (SSN), from Payroll Personnel System screens, reports and files where it is not essential to the functionality.

Accordingly, Labor Relations has requested that the SSN be removed from the monthly union deduction reporting files that are provided to the unions by UC Office of the President.

Using the source files created by the campuses' monthly dues deduction processing and transmitted to the Office of the President, the Payroll Interface Process merges the data and generates 10 union deduction files for pick up by the various unions.
