	Urgency:	Date Mandated (see Timing of Installation below)

This release addresses the following Service Request:

Service Request 82160

Service Request 82160 asks for two changes to the union roster file produced by PPP770:

- The employee-level information for all reported employees should include the Home Department Code (EDB0114) and the Department Location Indicator from the Home Department (HME) table; the appointment-level information for all reported appointments should include the Title Unit Code (EDB2029) and the Appointment Representation Code (EDB2031).
- If an employee transfers out of a unit, but has not separated (union reporting action TRANSFER OUT), the employee should be reported to the unit with the employee's name, home department detail, and all of the non-unit appointments.

Programs

PPOT1826 (One-time)

PPOT1826 converts the history file generated and used by PPP770 to include space for the new employee- and appointment-level fields. The history record has increased in size from 984 characters to 1258 characters. The new fields are set to spaces. The fields will be populated by the next run of PPP770.

PPP770

PPP770 generates the collective bargaining interface file for union reporting. It was modified to include the following fields in the interface and history files:

- Home Department Code (EDB0114; employee level)

- Department Location Indicator (from the Home Department (PPPHME) table, based on the Home Department Code; employee level)
- FILLER for future expansion (employee level, 30 characters)
- Title Unit Code (EDB2029; appointment level)
- Appointment Representation Code (EDB2031; appointment level)
- FILLER for future expansion (appointment level, 20 characters each)

The history record has increased in size from 984 characters to 1258 characters, and the activity record has increased in size from 992 characters to 1266 characters.

In addition, when the weekly or monthly processing mode encounters an employee who has transferred out of a bargaining unit (reporting action TRANSFER OUT), all other non-unit appointments (expired, current, and future) will be included in the interface file.

Copy Members

CPWSUNFL

CPWSUNFL defines the record layout for the tab-delimited union reporting file. It was modified to include the following fields:

- Home Department Code (EDB0114; employee level)
- Department Location Indicator (from the PPPHME table, based on the Home Department Code; employee level)
- FILLER for future expansion (employee level, 30 characters)
- Title Unit Code (EDB2029; appointment level)
- Appointment Representation Code (EDB2031; appointment level)
- FILLER for future expansion (appointment level, 20 characters each)

The record has increased in size from 992 characters to 1266 characters.

Installation Instructions

A separate Installation Instructions document is provided for this release.

Test Plan

A separate Test Plan document is provided for this release.

Timing of Installation

The timing of this release is **date mandated**. The modifications to PPP770 must be installed and PPOT1826 run **after** the last weekly run of PPP770 for July 2008 and **before** the monthly run of PPP770 to begin August 2008.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Caroline.Rider@ucop.edu, or call 949-837-1784.
