

Created on: April 10, 2008

SR82208 Requirements
WHO Screen Performance Improvement

Objective:

To improve the performance of the Employee Browse (WHO) screen

Project Type:

This is a technical enhancement to an existing program.

Requested by:

Payroll Coordination

Analyst:

Patty Yamashita, Payroll Coordination
Carrie Gatlin, IR&C Payroll/Personnel Services

Due Date(s):

This modification is not urgent.

Proposed Modification:

Technical staff at UC Berkeley reported that adding 'FETCH FIRST 20 ROWS ONLY' to the query in the Employee Browse function (WHO) would greatly improve performance.

It is suggested that this change be made to the base PPS program.
