	Forms:	None
	Urgency:	Not Urgent (see Timing of Installation below)

This release addresses the following Service Request:

Service Request 82208

Service Request 82208 asks to improve the performance of the Employee Browse (WHO) screen.

Service Request 82208 provides the following background information:

Technical staff at UC Berkeley reported that adding "FETCH FIRST 20 ROWS ONLY" TO THE QUERY in the Employee Browse function (WHO) would greatly improve performance.

Programs

PPWWHO

PPWWHO is the screen processor for the WHO function (Employee Browse).

PPWWHO was modified to add a condition that would minimize the number of records that could be retrieved.

Installation Instructions

1. COBOL Program Preparation

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

Install, compile, and link the **modified** program:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPWWHO	Yes	CICS	Yes	

Test Plan

This test plan addresses the test runs and cases constructed to verify the correct installation of this release.

CICS On-line "WHO" screen.

- Log on to the CICS online region.
- From the Main Menu, bring up the "WHO" screen.
- Verify that the release number on the upper left-hand corner displays "PPWHO0-1842".

Timing of Installation

The timing of this release is **not urgent**.

As usual, campuses are encouraged to install this release in as timely a fashion as possible and in the normal numeric sequence.

If there are any questions, please send electronic mail to Pamela.Torres@ucop.edu, or call 510-987-0741.
