Service Request # SR 82524

Non-Resident Alien Flat Amount Additions to Gross Income

Objective:

To update the System Parameters Table to reflect increased flat amount additions to the gross pay of non-resident aliens (“NRAs”) to calculate federal income taxes.

These increases were announced in IRS Publication 15-T, March 2009. The American Recovery and Reinvestment Act of 2009 authorized a federal income tax credit for which non-resident aliens are not eligible. The increase in the flat tax amounts will offset the reduced tax calculated in the recently revised federal income tax withholding tables for non-resident aliens.

Project Type:

Update UPAY 559, the System Parameters Table, to reflect increased flat amounts applicable to NRAs for the bi-weekly, semi-monthly and monthly payrolls.

Requested By:

Payroll Coordination and Tax Services

Analyst:

Carolyn Murray

Due Date:

Implementation to occur so that the aforementioned Table is updated for pay dates on and after April 1, 2009.

Attachment: UPAY 559
