This release addresses the following Service Request:

**Service Request 82473**

Service Request 82473 asks that the same edit rules that were updated by release 1656 for Federal and state withholding allowances also be applied to the entry of the withholding allowances for rush checks (OPT1 and OPT2). The current limit on allowances of 150 in rush checks should be increased to 996, and the existing edits for the special values (997, 998, and 999) should remain as they are.

**Copy Members**

**CPWSRCTS**

CPWSRCTS defines an EXTERNAL area used by Rush Checks processing. It was modified to replace the limit of 150 for Federal and State exemptions with a limit of 996.

**Installation Instructions**

A separate Installation Instructions document is provided for this release.

**Test Plan**

A separate Test Plan document is provided for this release.
