

**Release 1885**

**Service Request 82579  
Add “Division” Field to the CONEXIS File**

**Service Request 82729  
Re-derive MCB Upon Rehire**

## **Installation Instructions**

October 27, 2009  
Prepared by Alex Tayag

Information Resources & Communications  
Office of the President  
University of California

This document provides installation instructions for release 1885. Please review these instructions carefully before proceeding with the installation.

## 1. *Copylib Member Installation*

- 1.1 Install **modified** copy members:

Copylib Members	Installed?
CPWSXFSA	

## 2. *COBOL Program Preparation*

At UCOP, all COBOL programs pass through the DB2 pre-compiler, whether or not the program contains embedded SQL, to resolve INCLUDE references. Your site may have different requirements.

"DUAL" programs must be compiled twice and linked into batch and online libraries ("LOADLIB" and "OLOADLIB" respectively). "CICS" programs must be CICS pre-compiled and compiled once and linked into OLOADLIB. "BATCH" programs must be compiled once and linked into the batch LOADLIB only.

- 2.1 Install, compile, and link the following **modified** programs:

PROGRAM	DB2?	Compile Type	Package Bind?	Done?
PPEI720	Yes	Dual	No	
PPP467	Yes	Batch	No	

## 3. *Plan Binds*

- 3.1 Bind the following plans:

Bind Member	Done?
PPP467	

## 4. *Testing*

- 4.1 Perform installation verification testing as described in the Test Plan. In addition, perform any further local testing.

## 5. *Install in Production*

- 5.1 Place modified objects in production.
