**SR82612 Requirements
SHPS Clean Up**

Objective:

Clean up obsolete control table entries, help text, forms, etc. related to former vendor SHPS.

Project Type:

PPS enhancement.

Requested by:

Kris Lange, Vendor Management

Analyst:

Business analyst: Ken Smith, HR&B IS&S

Urgency:

Clean Up: Not Urgent

Implementation Deadline:

No specific deadline.

System Requirements:

1.0 Control Table Updates

Modifications to the Code Translation Table and the System Message Tables will be needed.

1.1 Code Translation Table

The Code Translation Table should be modified to make translations for the following codes, as obsolete:

Data Element	Value	Length	Translation
GTNLBL	335	24	DepCare
GTNLBL	338	24	HCRA

1.2 System Message Table

The System Message Table should be modified to delete following messages to GN-335 and GN-338.

GN-335 GROSS-TO-NET CONSISTENCY EDIT 335 FAILED

GN-338 GROSS-TO-NET CONSISTENCY EDIT 338 FAILED

2.0 HELP and HELPTTEXT

Make obsolete CICS HELP and HELPTTEXT members for all references to 335 DepCare and 338 HCRA.

3.0 Forms

Make obsolete Program Run Specification UPAY920 – PPP466 (reporting year for SHPS file)

4.0 Interface Files

PPP466_SHPS_record_layout.pdf can be removed from the Payroll Maintenance website http://www.ucop.edu/payroll/pps_layouts/

5.0 Additional Technical Clean Up

Any opportunities for additional technical cleanup that are discovered by the programming staff in the course of this project should be pursued at the discretion of IR&C and incorporated into the design document.
