Issue Number	Issue Title	Status	Priority	Version
PPS_ERR-2123	Web Merit gets rate not found when TCT grade data "incomplete"	Open	High	OP
Created on 09-26-2007 00:00:00 by Maxine Gerber				
Last Updated on 09-26-2007 00:00:00 by Maxine Gerber				
Description: UCOP reports, In TCS, when a new grade are added for a title, a TCT Add transaction is generated for that title and grade, with the current date as the effective date. When the transaction is applied to the campus TCT (TGB table), the existing...				
PPS_ERR-2173	Application of improper monthly cap for UPTe unrepresented dues	Open	High	SD
Created on 07-18-2008 00:00:00 by Carrie Gatlin				
Last Updated on 07-18-2008 00:00:00 by Carrie Gatlin				
Description: San Diego reports, that employees who have both UPTe represented dues and UPTe unrepresented dues present on the EDB, but who only have earnings on unrepresented appointments, are being assessed unrepresented dues (GTN 370) up to the monthly cap...				
PPS_ERR-2178	Safe Harbor gross in Rush Check process	Assigned for Fix	High	DV
Created on 08-20-2008 00:00:00 by Carrie Gatlin				
Last Updated on 07-06-2010 11:26:26 by Carrie Gatlin				
Description: Davis reports, that when generating a rush check for a TIP contribution taken in error, all of the appropriate tax grosses were increased, however, the DCP Safe Harbor gross was not. Further testing by Payroll Coordination revealed that, when...				
PPS_ERR-2219	Web PAN should use current DB2 drivers	Open	High	OP
Created on 08-06-2009 15:22:02 by Maxine Gerber				
Last Updated on 10-16-2009 15:34:36 by Carrie Gatlin				

Description: Web PAN should be changed to be able to use current DB2 drivers instead of an old type of driver which is no longer supported. Tech services hoping to get rid of the software associated with the old drivers by the end of this year. Sundar has...

PPS_ERR-2228 Problem with TCT updates for SX - effective dates Open High OP

Created on 10-05-2009 13:09:08 by Maxine Gerber

Last Updated on 10-05-2009 15:47:34 by Maxine Gerber

Description: See research issue [PPS_RS CH-43](#) at http://www.ucop.edu/issuetracker/?action=issue_view&project_id=33&issue_id=32258&type=all

Campuses reported that they were unable to enter appointment and distribution EDB data for SX titles after...

PPS_ERR-2247 Retro Range and Negative DOS Codes Assigned for Fix High OP

Created on 01-28-2010 14:00:39 by Caroline Rider

Last Updated on 02-26-2010 18:58:26 by Carrie Gatlin

Description: PPP930 has code to explicitly switch the signs on the RA transactions it produces when the DOS code is a START DOS code, which is naturally negative. The logic does not work correctly when the original transaction itself was negative, such as an...

PPS_ERR-2304 Help Text Value Overlay of CICS Screen Data Open High OP

Created on 06-11-2010 15:10:12 by Robert Franks

Description: During QA testing of the IPEDS CICS screen changes it was noticed that a EDP1 screen data field was being changed when the Help Text function was entered (F1) and exited (F3/F12) on an updateable field without any update (F4 Copy) action being...

PPS_ERR-2306 WNH - Application should exit if auto ID gen is not on Open High OP

Created on 06-22-2010 15:12:46 by Maxine Gerber

Description: Web new hire was developed under the assumption that the campus MUST have auto ID generation turned on. There's nothing in the web app that enforces this, so the app proceeds normally. At update time, however,

the back end does NOT change the IDB...

PPS_ERR-2316 **PAN Headers are mal-formed** **Open** High SD

Created on 07-13-2010 16:07:03 by Maxine Gerber

Last Updated on 07-13-2010 16:07:03 by Maxine Gerber

Description: UCSD reported that PAN email headers are mal-formed when PANs are generated from CICS. In their environment, the recipient receives the PAN anyway, but when Outlook "out of office" is turned on, the PAN is NOT received.

In the base...

PPS_ERR-2323 **PPS web apps should not directly reference PPSWebService client code** **Open** High N/A

Created on 07-23-2010 14:01:11 by Steven Hunter

Last Updated on 07-23-2010 14:03:12 by Steven Hunter

Description: Both EDBInquiry and PPSWeb have direct imports of PPSWebServices client classes. All client operations should be done through facade interface references, to keep the coupling between the client web apps and the service layer to a minimum. In...

PPS_ERR-1869 **MULTI-RETRO MERIT OVERTIME RATE MATCHING** **Assigned for Fix** Medium RV

Created on 06-25-2003 00:00:00 by Anonymous User

Last Updated on 02-26-2010 19:37:21 by Carrie Gatlin

Description: Riverside reports, thatCX Rate Adjustment effective 10/01/02 (Range followed by Merit), in a "multi" Retro Merit process, Overtime and Comp Time earnings Pay Rates are not matched to the associated adjusted Pay Rate reflected by the Merit Match...

PPS_ERR-1905 **RUSH CHECKS - ALTERNATE CLEARING ACCOUNT** **Open** Medium BK

Created on 02-23-2004 00:00:00 by Anonymous User

Last Updated on 02-23-2004 00:00:00 by Anonymous User

Description: Berkeley reports, In program PPP530, the Alternate Clearing Accounts ("-ACA-" account series

112601, etc) are accumulated at the Location level using the CPWSXIC5 field arrays "IDC-ACA-TOTL". Unfortunately, these fields are defined as 99,999V99...

PPS_ERR-2168 **Next Salary Review Code is displayed as zero** **Open** Medium OP

Created on 06-17-2008 00:00:00 by Maria Villanueva

Last Updated on 06-17-2008 00:00:00 by Maria Villanueva

Description: UCOP reports, The Next Salary Review Code is displayed as zero on the Web Merit Employee Detail screen when its value is blank. This should be displayed as blank.

PPS_ERR-2020 **PPP540 abends with duplicate key on TOE** **Open** Medium BK

Created on 04-05-2006 00:00:00 by Maxine Gerber

Last Updated on 04-05-2006 00:00:00 by Maxine Gerber

Description: Berkeley reports, This problem was first reported by Sungsoo to Jerry in 2003. Berkeley keeps 25 months of TOE data. After a separated employee is purged from the EDB, if he is hired, it is entered as a new hire. During the new hire process, the...

PPS_ERR-1816 **NEGATIVE 305 RETURNED FROM SELECT STATEMENT** **Open** Medium LA

Created on 10-08-2002 00:00:00 by Anonymous User

Last Updated on 10-08-2002 00:00:00 by Anonymous User

Description: Los Angeles reports, It has been reported that a negative SQL code of 305 occurred in program PPP776. A negative SQL code of 305 is returned from the first select statement in section9300-SELECT-BAS-DATA of program PPP776, because no rows meet the...

PPS_ERR-2196 **Server must be restarted to get the new year into the date...** **Open** Medium DV

Created on 01-21-2009 00:00:00 by Maxine Gerber

Last Updated on 01-21-2009 00:00:00 by Maxine Gerber

Description: Davis reports, that after 1/1/09, the "to" date popup on the notification selection screen only went as far as 2008. It was determined that the date is taken from the app server, while the from date was taken from the database. When the server was...

PPS_ERR-

1806	COND CODE NOT SET FOR DB2 ERROR	Open	Medium	RV
Created on 07-18-2002 00:00:00 by Anonymous User				
Last Updated on 07-18-2002 00:00:00 by Anonymous User				
Description: Riverside reports, It was reported that a -818 SQL code occurred for PPP864, but a zero Return Code was issued. Though comments associated with the negative SQL copy code CPPDXP99 indicate that a Return Code of 5 will be set, it is not in fact...				
PPS_ERR-1883	ORCA OVER/UNDERPAYMENT DOS FACTOR	Open	Medium	LA
Created on 09-24-2003 00:00:00 by Anonymous User				
Last Updated on 09-24-2003 00:00:00 by Anonymous User				
Description: Los Angeles reports, that in the ORCA process for recording Over/Underpayments (screen OVPY), the Earnings Gross recalculation is incorrect when the DOS Rate Calculation is '02' (Rate X Hours X Factor). The offending calculation completely...				
PPS_ERR-2152	PPP1231 contains blank pages	Open	Medium	SF
Created on 02-25-2008 00:00:00 by Maxine Gerber				
Last Updated on 02-25-2008 00:00:00 by Maxine Gerber				
Description: San Francisco reports, Program PPP123 generates a blank page for every printed page in report PPP1231. The problem resides in program PPEDTERR - paragraph STANDARD-PAGE-HEADING has two copy statements for copylib member CPPDXP01.				
PPS_ERR-2094	Web Merit abend with > 100% increase	Open	Medium	OP
Created on 06-19-2007 00:00:00 by Maxine Gerber				
Last Updated on 06-19-2007 00:00:00 by Maxine Gerber				
Description: UCOP reports, An abend occurs when the current time/% is zero and the increase causes the percent increase to be more than 100%. The data field for the percent change,MLA_PCT_INCREASE, only holds 2 positions on each side of the decimal, so it...				
PPS_ERR-1582	VARIOUS, PRIMARILY DATE DISPLAY IN SUB-TOTAL LINES	Open	Medium	SF
Created on 08-19-1998 00:00:00 by Anonymous User				
Last Updated on 08-19-1998 00:00:00 by Anonymous User				

Description: San Francisco reports, Programs PPP878 and PPP888 incorrectly populate the label associated with the monthly sub-total of earnings on the PPP8781 and PPP8881 reports. The year is assumed to come from the current fiscal year, as defined on the...

PPS_ERR-1922 **TCT TRANSACTION 31 ERROR** **Open** Medium OP

Created on 06-10-2004 00:00:00 by Anonymous User

Last Updated on 06-10-2004 00:00:00 by Anonymous User

Description: UCOP reports, During recent conversion of TX and RX titles from open range to steps, the TCS Rate Lookup Code was changed from 'M' (Open Range) to 'S' (Stepped) in addition to creating new step/rate structures effective 7/1/04. Rate Lookup Code is...

PPS_ERR-2029 **Effective date becomes enabled for 7000 elements** **Open** Medium SF

Created on 06-06-2006 00:00:00 by Maxine Gerber

Last Updated on 06-06-2006 00:00:00 by Maxine Gerber

Description: San Francisco reports, The EDED screen allows input of either 6000 or 7000 data elements. But if the PPPDES row for data element number 7000 for this screen is turned OFF, the 7000 elements, effective date and BRSC should be disabled...

PPS_ERR-2189 **Interface files to UCRS out of sync** **Open** Medium OP

Created on 11-21-2008 00:00:00 by Janet Kennedy

Last Updated on 11-21-2008 00:00:00 by Janet Kennedy

Description: UCOP reports, The interfaces files from PPS to UCRS are generated by PPI730 and PPI740. Each program contains a table of "voluntary" GTN numbers which if an employee has a deduction taken for one of these that employee will appear on the UCRS...

PPS_ERR-1863 **WRONG DATE SENT** **Open** Medium OP

Created on 05-22-2003 00:00:00 by Anonymous User

Last Updated on 05-22-2003 00:00:00 by Anonymous User

Description: UCOP reports, Contrary to what Error Report 1853 (fixed in R1487) said, an appointment end date of 12/31/9999 should NOT be converted to the

high Sybase date (06/06/2079). The Sybase date field used to hold the appointment end date is capable of...

PPS_ERR-2086 **Data Exception - History PPP742/PPP743** **Open** Medium OP

Created on 05-07-2007 00:00:00 by Anonymous User

Last Updated on 05-07-2007 00:00:00 by Anonymous User

Description: UCOP reports, While researching, testing, and documenting the history process, a problem was found such that when executing programs PPP742 and PPP743, a data exception occurred when the ECF file contained HCRA or Dependent Care (DCRA) changed...

PPS_ERR-2019 **TOE Table Problem-New/Re- Hire** **Open** Medium BK

Created on 03-27-2006 00:00:00 by Anonymous User

Last Updated on 03-27-2006 00:00:00 by Anonymous User

Description: Berkeley reports, PPP540 Will reject rows with a duplicate alternate key. The population is not large and is associated with Re-Hires processed as though they were New Hires because due to time, the employees records were purged from the EDB....

PPS_ERR-2052 **PPFCBUTW abends with SQLCODE -803 (duplicate key)** **Open** Medium OP

Created on 10-09-2006 00:00:00 by Maxine Gerber

Last Updated on 10-09-2006 00:00:00 by Maxine Gerber

Description: UCOP reports, PPFCBUTW abends with SQLCODE -803 (duplicate key) under the following circumstances: 1. I hire an employee effective 05/01/06 and that employee is enrolled in medical, dental, vision and legal plans effective 05/01/06.2. On the EDEP...

PPS_ERR-1779 **OVERTIME MAXIMUM OF 10 PER EARNING DATE** **Open** Medium SF

Created on 02-19-2002 00:00:00 by Anonymous User

Last Updated on 02-19-2002 00:00:00 by Anonymous User

Description: San Francisco reports, Copy member CPLNKOTR defines a two level array used for determining total non-premium overtime amounts/hours. The second level (OT-ACCT-HOLD-DIST) of this

array defines a size large enough for only 10 Overtime entries for a...

PPS_ERR-1975 **Error found in PPWIADD** **Open** Medium SF

Created on 05-13-2005 00:00:00 by Baskar Chitravel

Last Updated on 05-13-2005 00:00:00 by Baskar Chitravel

Description: UCOP reports, There is an error in paragraph 8450-GET-COUNTRY-NAME SECTION in PPWIADD

where a country code (a two byte field) is getting overlaid by the country name (a 30 byte field). This is a problem particularly because the first two bytes of...

PPS_ERR-2098 **Web Merit RSM: Incorrect New Annual Salary and Negative Annual...** **Open** Medium OP

Created on 07-05-2007 00:00:00 by Maria Villanueva

Last Updated on 07-05-2007 00:00:00 by Maria Villanueva

Description: UCOP reports, On a Range-based roster, an RSM condition has the New Annual Salary being equated to the New Monthly Rate. This is incorrect and has resulted to a negative Annual Increase. The above problem has resulted to another error being...

PPS_ERR-1871 **ORCA SAFE HARBOR RETIREMENT REDUCTIONS** **Open** Medium SD

Created on 07-09-2003 00:00:00 by Anonymous User

Last Updated on 07-09-2003 00:00:00 by Anonymous User

Description: San Diego reports, During the ORCA process for recording Overpayments (OVPPY function),

when the employee's Retirement Plan is Safe Harbor, the Retirement Gross is properly accumulated based on the FICA DOS Subject Gross Indicator (rather than the...

PPS_ERR-2017 **PPP420 generates invalid check numbers after maximum** **Open** Medium BK

Created on 03-14-2006 00:00:00 by Maxine Gerber

Last Updated on 03-14-2006 00:00:00 by Maxine Gerber

Description: Berkeley reports, that in PPP420, the check number is incremented by 1 for each check and after 999999; it rolls over to 000000 which caused invalid values to be printed on reports. Berkeley resolved this as

follows in the PRT-NET-PAY-3255...

PPS_ERR-1311 **ZERO PCR SUBSCRIPT** **Open** Medium LA

Created on 08-02-1995 00:00:00 by Anonymous User
