## CONTRACT AND GRANT OFFICERS

**Subject:** Department of Energy M & O Laboratories Standard Research Subcontract – July 28, 2005  
Revision

The federal Department of Energy (DOE) standard research subcontract for research and development work funded by DOE Management and Operating Laboratories (M&O) to educational institutions and non-profit organizations has been modified. The original model subcontract dated October 27, 2004 has been replaced with a revision dated July 28, 2005. The revised standard subcontract is available at:

<http://www.management.energy.gov/documents/Flash2005-44.pdf>  
<http://www.management.energy.gov/documents/FLASH2005-44ATTACHMENT2.doc>

The only revision made to the new model subcontract is the addition of DEAR clause 952.235-71 (JUL 2005), Research Misconduct. This clause incorporates the DOE implementation of the federal research misconduct requirements into this model subcontract. All other terms and conditions remain the same.

The DOE Standard Research Subcontract can be used by all DOE M&O laboratories. Guidance on its specific use by Los Alamos National Security (LANS) for subcontracts from the LANS to University campuses will be provided in a separate Operating Guidance Memo.
