Memo

Operating Guidance

No. 08 - 06
May 28, 2008

CONTRACT AND GRANT OFFICERS

Subject: Lawrence Berkeley National Laboratory Intra-University Agreements

The Lawrence Berkeley National Laboratory (LBNL) has revised its Procurement Standard Practices SP 44.1, Intra-University Transactions (IUT). This agreement is used for “research, shared labor, and supporting efforts ... acquired from campuses of the University of California (University).”

The revised IUT is attached to this memo along with a list of the revisions made to the previous IUT, published with C&G Operating Guidance Memo 98-11, which is cancelled. The procedures in SP 44.1 are directions to the Laboratory staff in charge of this process, as well as providing information for campus Principal Investigators and Contract and Grant Officers with regard to the restrictions and requirements of LBNL IUTs.

This revised IUT was effective November 16, 2007.
