

CEQI AWARDS FOR ACADEMIC YEAR 2006-07

Investigator's Name	Type	Campus	Department	Project Title
Mark Carr	PI	UCSC	Department of Ecology and Evolutionary Biology	Assessing the Assessment: New Models for Informing the Design of Monitoring and Evaluation Programs for Kelp Forest Ecosystems in California's MPAs
Edwin Grosholz	PI	UCD	Department of Environmental Science and Policy	Establishing Connectivity of Invasive Populations: A Precursor to Prioritization and Implementation of Eradication Efforts
Katie Arkema	Graduate Student	UCSB	Department of Ecology, Evolution and Marine Biology	The Ability of Kelp Forests to Filter Nearshore Waters and Impact Water Quality
Henry Carson	Graduate Student	UCD	Department of Environmental Science and Policy	Tracking the Larval Dispersal of the Native Oyster (<i>Ostrea conchaphila</i>) Through Trace-elemental Fingerprinting
Anthony Clemento	Graduate Student	UCSC	Department of Ocean Sciences	Validation of a New Method for Population Assessment of Pacific Salmonids
Geoffrey Cook	Graduate Student	UCSD	Scripps Institution of Oceanography	Quantifying Larval Dispersal and Local Retention within a Marine Protected Area Network of the Southern California Bight
Julia Ekstrom	Graduate Student	UCSB	Bren School of Environmental Science and Management	Facilitating Ecosystem-Based Management through the Evaluation of Ocean Management Systems Interplay
David Kimbro	Graduate Student	UCD	Department of Environmental Science and Policy	The Effect of a Non-native Whelk on Native Oyster Populations in a Central California Estuary
