Secondary Relying Campus PI: **Gray, Joe**

Secondary FWA Number: **00006252**

Dear Dr. Ko:

This is to acknowledge that the University of California, Berkeley (Relying IRB), operating under its Federalwide Assurance (FWA) has received the documentation and Institutional Review Board determination of expedited approval for the above-captioned human subjects research project. UC Berkeley's IRB - Committee for Protection of Human Subjects (CPHS) - intends to rely upon the determination made by the University of California San Francisco IRB (Reviewing IRB). The research, as described in the approved protocol, is now authorized to begin on the UCB / LBNL campus.

Any **proposed** amendments or modifications to the protocol, annual renewals, and other required notifications **must** be submitted to the UCSF IRB for review and approval, with copies of the final approved documents submitted to the LBNL HSQAC & UCB Office for the Protection of Human Subjects (OPHS). **Please reference the UCB CPHS Protocol Number, noted above in this letter, when**

**submitting documents to the OPHS.** The authorization to conduct research on the UCB campus expires on the Reviewing Campus Expiration date, noted above.

The research must be conducted in accordance with all applicable Federal and State Laws, University of California and UCB Policies, and with the terms of the UCSF-UCD-UCB/LBNL Memorandum of Understanding.

Please feel free to contact the OPHS with any questions at [ophs@berkeley.edu](mailto:ophs@berkeley.edu) or 510/642-7461.

Sincerely,

Rebecca D. Armstrong, DVM, PhD  
Director  
UCB Office for the Protection of Human Subjects
